

## **“RESIDENTIAL ROLLOUT RECYCLING PROGRAM”**

### **GUIDELINES**

Dear Residential Recycling Customer:

In order for the “residential rollout recycling program” to succeed, please follow the guidelines below:

- Recycling rollout collection is a bi-weekly collection (i.e., the rollout will be collected every other week.) Note: there may be adjustments for holidays.
- Place the rollout at the curb (wheels facing your residence) the night prior to scheduled collection and removed from street by midnight.
- The recycling rollout is assigned to your location-do not remove.
- Be sure the rollout is at least three feet away from any obstructions, i.e., other rollouts, wires, vehicles, trees, etc.
- Be sure that recyclable items are not jammed into can. Flatten and place large cardboard boxes beside the rollout
- Only place in the bin acceptable items for recycling
- Do not place any trash, garbage, yard waste or any other item that is not on the acceptable recyclable list.
- Visit [www.LexingtonNC.gov](http://www.LexingtonNC.gov)
